Perkins.

ALMANACK

AND

OGNOSTICATION

FOR

year of our Lord God 1671.

BEING

third after *Bissextile* or Leap-year,

And from the Worlds Creation

5634.

ted and chiefly referred to the famous City of *London*.

e and set forth by *F. Perkins*,

welwiller to the Mathematicks.

LONDON,

nted by *E. L.* for the Company of

STATIONERS.

The Common Notes, and Moveable Feasts,

According to the English Account, for this Year 1671.

The Golden Number	19
The Dominical Letter	A
Shrove-Sunday	5 *March*
Easter-day	23 *April*
Rogation-Sunday	28 *May*
Ascention-day	1 *June*
Whitsunday.	11 *June*

Note, That the Roman Account is always ten days before the English Account; so that their Eleventh day is our First day, and our Last day is their Tenth day,

---

The Exchequer openeth eight days before any Term begins except the Term of Trinity, before which it openeth but four days.

Observe, that the first and last days of every Term, are the first and last days of Appearance.

A perfect Table of the four Terms, and their Returns:

With the Essoyn-Dayes, Dayes of Exception, *Returna Brevium*, and days of Appearance, this Year 1671.

Return-Dayes or Dayes of Essoin.	Dayes of exception	Returna Brevium	Dayes of apparence
Hillary Term **begins Jan. 23. ends Febr. 13.**

Perkins. 1671.

A Prognostication for the year of our Lord God, 1671.

Being the third after Bissextile, or *Leap-year*, and from the Worlds Creation, 5634.

Wherein is contained the description of the four quarters of the year: As also a Chronological Table of many things worth remembrance, since the Creation, until this present year, 1671. Collected for the most part out of Ecclesiastical History, and other good Authors, something augmented.

By F. PERKINS, Well-willer to the Mathematicks.

Printed at *London* by *Robert White*, for the Company of Stationers, 1671.

A Description of the four Quarters of the year, and first of Winter.

☉ in ♈ ♉ ♊.

According to the custom of writers in this kind, Winter Quarter is the first Quarter, which took beginning the 11. day of December, at which time the Sun entred into the first degree of the cold and dry sign Capricorn, being the most remote from us in his farthest South declination, causing the dayes with us to be shortest, and the nights longest; Which Quarter continuing until the Sun hath slowly passed through Capricorn, Aquarius, and Pisces. This Quarter doth naturally resemble Old age.

Of the Spring.

☉ in ♈ ♉ ♊.

This Quarter doth take beginning the 10 of March, at which time the Sun entreth into the first minute of Aries, and doth continue whilest the Sun is passing through these 3 vernal signs, Aries, Taurus, and Gemini. This Quarter doth resemble growing youth.

Of Summer.

☉ in ♋ ♌ ♍.

The Summer Quarter doth take his beginning when the Sun doth enter into the first degree of Cancer, which will be this year the 11 of June, and doth continue whilest the Sun passeth through Cancer, Leo, Virgo; now are the dayes longest, and the ayr hottest; therefore but for necessity, bid Physick Adieu.

Of Autumn.

☉ in ♎ ♏ ♐.

Autumn or Harvest Quarter (commonly called the Fall of the Leaf, of some the latter Spring) doth begin when the Sun doth enter into the first degree of Libra, making again the day and the night of equal length; which will be this year, the 13 of September, and doth continue whilest the Sun doth pass through Libra, Scorpio, and Sagitarius. This Quarter doth fitly resemble declining age, and Phlegmatick complexion.

A brief Chronological Description of many things worthy of memory that have hapned since the Creation unto this present year of our Lord 1670. with the year of the World in which they hapned in the first Column; faithfully collected from many good Authors.

Year of the World.		Years before the Nativity of Christ.	Years expired.

There

There will be 2. great Eclipſes of the Moon this year 1671. The firſt 15. March about 11. a clock before Noon, but not viſible to us. The 2. the 8. September; the beginning at 4. h. 50. m. the middle at 6. h. 40. m. the end at 8. h. 70. m. in the evening. From the middle to the end it will be viſible in our Horizon.

Excellent Notes of Husbandry and Gardening for each Moneth in the Year.

January Obſervations.

In this moneth cut down timber (and it ſhall not cleave not be eaten with worms) in the laſt quarter of the Moon ſet or ſow Kernels and May-trees, Privet and Haſ, ſet Quickſets, Roſe-trees, Peaches, Philbirds, and Plum-trees, if the froſts be not too hard, prune and lop them; before full Moon ſow and ſet Beans and Peaſe, and mend Land: in the laſt quarter geld Cattel to rear, fallow Land for Wheat and Rye, trench Gardens with dung, and remove Bees: and for your own health keep your body warm, let good and wholſom Diet be your Phyſician, moderate Exercise and Labor your chief meals to raiſe Appetite.

February Obſervations.

Sow all ſorts of Peaſe, and other pulſe, ſow muſtard-ſeed, caſt up dikes, ſet and plant hops, gooſberries, and any fruit that grows upon bushes, prune and trim all ſorts of fruit-trees from moſs, canker, and all ſuperfluous branches, graft in the laſt end of the Moneth, ſow onions in cold ſtiff land, take heed of cold, forbear Phyſick, uſe mild meats.

March Obſervations.

In the new of the Moon (the wind any way but ſouth or weſt) graft pears, mulberry or apple-trees, make an end of ſowing all manner of pulſe, and begin to ſow cane, turnip, parſnips, onions, carrets, cucumbers, melons, and all kinde of pot-herbs. Dig your banks and ſage, geld lambs, let blood according to ſtrength and neceſſity, the day and weather being alſo fit (but repair to the learned Phyſitian) look what cannot be cured in the Spring by Phyſick, will hardly be cured all the year after.

April Obſervations.

Sow barly, hemp and flax, ſet hops, ſet and ſow all kind of Garden herbs, open hives, and let bees labor for their living, let Tanners now provide them with bark, and all good Husbandmen look to their Dairies, bleed and purge with advice thoſe that are troubled with aches or the gout, let them go to the Bath in this or the three following Months.

May Observations.

Remembering all light leaves and bearing grounds, and sift with hemp and flax, and all manner of fine seeds and beans, take Lambs from their dams, stir land for beans and rye, leave lopping of trees, teach hops to climb, but cut off the superfluous branches, else early, walk the fields, especially by running streams, sage and sweet butter is made an excellent breakfast, sage and clarified whey, as also strong-grais ale, and wormwood beer are wholesome drink to be drunk fasting.

June Observations.

Shear sheep, bring home several weeds corn and gardens, set rosemary, carnations and gilly flowers, sow lettice and cabbage-seed three or four dates after the full, for then they will not run to seed, make hay, carry sand, lime, marle and manure of what kinds to your desiring your land, cut neither hedge nor tree, in this and the two next Moneths, beware of great thirst, use thin and light diet, moderate exercise, and chaste thoughts.

July Observations.

Make your hay and house it while its fair weather, pull hemp that is ripe, gather wood beans, get rue and wormwood, and gaul to strow on your flowers, to destroy moths and flies, reduce your copies, use moderate diet, take heed of great thirst, for nothing bringeth the pestilence sooner than extreams thirst and fervent heats, and cold taken suddenly upon them, take no physick, bleed not but upon all violent occasions.

August Observations.

Follow close your corn harvest, sow winter herbs in the new of the Moon, gather garden-seeds, mow barley and oats, gather your summer-fruits, refrain from sleeping in the day time after meat, abhor riot and excess.

September Observations.

In the beginning of this Moneth and end of the former, gather hops when they are brown, the weather being fair and no dew on the ground, kill deer, make perry and cider, sow wheat and rye, remove and set all sorts of flowers between the two Lady days, put corn to malt, remove trees every new Moon from September till February, especially in the new of the Moon, the weather fair and warm, wind south or west, use exercise moderately, forbear fruits too pleasant or rotten, shun riot and excess of diets.

October Observations.

Sow wheat and rye, the sooner the better, for fear of rain, set arbors and plant winter fruit, the weather dry, in the afternoon, and in the wain of the Moon, for rosetrees if you desire to have store of roses, do this once in two years, receive now and needful Physick at the hands of the learned, and use all moderate sports to refresh the vital spirits.

November Observations.

Make malt, kill hogs, trench gardens with sing, set crab-tree-stocks, sow wheat and rye in exceeding hot sandy grounds, cut down timber for plows, carts, and other implements for husbandry, use wholsom meat and drink with good exercise to preserve health.

December Observations.

In this and the next moneth cut down timber, in the last quarter of the Moon, remember the fruit-trees: set beans and peale, cover all the best flowers and herbs from frosts and storms with old rotten barksing, look well to your cattel, water them, make your meadows, let bodies blood, and drink good wine and strong ale, keep thy body warm clad, thy house warm and dry, cast all care from you, and refuse that nor are in want with thy charity. Thus I have ended these Observations which I set down for thy advantage, make good use of them, and give God the Glory. Vale.

The

The beginning, continuance, and ending of the Kings Raigns since the Conquest, with the time how long it is since, to this Year, 1671. *Being fit for Scriveners, and such as are imployed in Law causes.*
